## Statement of Claim

(continued):

related problems, which I feel were unsubstantiated. When I first started working there we were alone in her office and I was presenting my I.D. for work purposes and she saw I was born in Japan and jokingly she said in 1917 we were mortal enemies. I did not think anything of it, until she started treating me differently, such as accusing me of leaving early shortly afterward. I cannot leave until my boss man does give me permission and I informed him the next day of the accusation. She made threats to me and he then said she was wrong. My mother recently died from Alzheimer's and I was taking care of her at the time. I told Belinda Chin, about my situation.

1.  
and She said I could do things for family Med. leave on Compensated time. When I used a job situation to turn papers in, She said I was in Violation and wrote me up. I started feeling Alienated and uncomfortable at work, because she was not friendly towards me anymore. When I took time off of work to care for my mother in emergency situations, I called in and had Vacation and Sick leave to cover it, and she accused me of being late. You can look at my timesheets which are documented to reflect no tardiness. I feel I was discriminated on because of Nationality and the proof is all the discrepancies in my firing. She accused me of lack of knowledge in my field and at times I showed my lead worker different ways to manage the pork. He used my experience to work better. His Name is Rich Castello and I want him called as a Witness. to my work performance.

2)

All of this I feel is reflected in that odd statement she made about "Mortal Enemy." This is not right and I would like Justice to be served

Yours truly

Jerry Jefferson
